Dear Harold,

I hope your convalescence is smoothly progressing. It ~~is~~ must be reassuring to know you have such a fine doctor supervising your treatment, even if his subordinates aren't very keen listeners.

Tomorrow I plan to give Jim a draft of our joint request for records of the LEGAT in Mexico City. I would like him to file it on his legal stationery for whatever advantage that might provide.

I have just requested that GSA send me "all agency records" on the HSCA investigation. Although I won't get the

Congressional records, this should include items like HSCA access to classification documents as well as their dealings with the physical evidence. Have you asked for the FBI and CIA records relating to the HSCA?

I also plan to ask the Executive office of the President for any records they might have.

If you ~~feel~~ feel up to it, could you check the FBI ^{vs.} CIA file for the DeLoach memo concerning LBJ's belief in a CIA conspiracy? Just the serial # will suffice, as I can get ^{it} from the FBI downtown.

Kevin will be in Dallas from 2-3 more weeks.

Best wishes,
Mark
